The Coal famine.
The coal famine extends as far south as El Paso, and west into Arizona. For some time the coal departments of the Santa Fe and the Texas & Pacific have been unable to find miners enough to work the mines at Cerrillos and Blossburg in this territory. Starvation in Colorado and at Thurber in Texas, consequently the southwest is now looking to the Salado coal fields in Lincoln county and the Eddys to help out as soon as the track gets into the new coal fields. With those great deposits within easy reach, there will be no occasion for coal famine hereafter. The vast fields will be able to supply the entire southwest alone, and Mr. Eddy will do an immense business in selling coal to all of the railroads entering El Paso.

RUNAWAY INDIAN BOYS.

Two Papagos Skip Out from Grand Junction School and Walk All the Way to Santa Fe.

Two Papago Indian boys, aged 17 and giving their names as Claude Wey-festernal and Samuel Seabola, were arrested last evening by Marshal Gallagos and jailed pending examination as to their antecedents. They proved to be runaway boys from the Indian school at Grand Junction, Colorado, and were trying to get back to their homes south of Phoenix, A. T. They have been a month on the road, following the lines of railway, and discovered that the distance was much greater than they had figured upon. They walked all of the way, and begged their victuals as they went along. The boys were pretty well fagged out, and were very hungry. They appear to be very decent youths, and ran away because they were homesick. The marshal handed the Papagos over to Prof. Viets, superintendent of the Indian school here, and he will care for them until it is decided whether to return them to Grand Junction, keep them here, or send them home.

MINOR CITY TOPICS.

The new standard gauge of the Denver & Rio Grande west of La Veta, will run up Middle Creek instead of by Veta mountain as at present. By July 1, standard gauge engines will be whistling in Alamosa.

Yesterday the thermometer at the local weather bureau registered as follows: Maximum temperature, 48 degrees, at 2:15 p. m.; minimum, 31 degrees, at 7:10 a. m. The mean temperature for the 24 hours was 40 degrees; mean daily relative humidity, 51 per cent.

The first railway to advertise in a Manila newspaper is the Denver & Rio Grande road. The second issue of The American, a paper published in the Philippine capital, prints as one of its largest display ads, an attractive advertisement of the Colorado and New Mexico scenic line. This does the "Little Giant" distance its competitors.

The local Rough Riders are happy, for their badges arrived this morning from the east. The badge is of bronze with a bar on which is in relief the name of the regiment, with a Grand Army eagle below backed by crossed swords, and below a disc with the names of the battles the regiment was engaged in arranged in a circle with R. R. in monogram in the center. The badge costs \$1.25 which the boys are very glad to pay, and are now wearing their insignia proudly as they deserve, and the same is being admired by citizens generally.

William Walther, better known as "Broncho Bill," has sufficiently recovered from the wounds he received at the time of his capture, to be taken from the penitentiary hospital to Socorro by Deputy Sheriff Baca, and this famous criminal will stand trial for his crimes next Monday when court opens. SAN MIGUEL CO. ELECTION RETURNS.

Statement of Vote Cast Received by the Secretary of the Territory, But the Law Has Not Been Complied With.

This morning Secretary Wallace received what purported to be the election returns so long wanted from San Miguel county, but an examination of the papers proved that they were not returns at all. The abstract of the vote was not certified to, although an effort had evidently been made to "sign up," but a complete failure was made of it; the county commissioners failed to send in the registration and poll books, and the sheet sent only amounts to a statement of the vote cast in the county, by some private individual.
